

# Outdoor Strobe Light (Bell Box)

Attracts Attention with Strobe and Siren

Our Outdoor Strobe Light (Bell Box) is battery-operated for completely wireless operation.

Upon receiving a signal from a transmitter that's been triggered, this innovative device responds by activating its siren and strobe light using two-way radio communication, attracting attention to the unit so village staff or emergency services will know exactly which unit to go to.

## Features

- Two-way radio communication
- Waterproof and UV proof with IP rating of 43
- Battery operated with life expectancy of over 3 years in a typical domestic environment
- Low-battery detection and reporting to control panel
- Randomised Supervision signals for trouble-free system integrity checking
- Jamming Detection to protect from unauthorised interference

- System Status Indicator with siren beeps and strobe light
- Automatic siren cut-off at selectable durations of 3, 5, or 10 minutes
- Strobe light control can be set to Auto Cut-Off or Manual Cut-Off

## Specifications
